

Known as Anxelli. I'm a mexican illustrator and infographic designer born in 1984. I have worked with different publishing houses and Institutes in Mexico; especially in children's and young people's literature books, textbooks and science popularization, as well as in digital media developing illustration, design and animations for e-learning courses.

Nowadays I have the honor of being vicepresident of the first Mexican Illustrators Association (Asociación Mexicana de Ilustradores AMDI, in spanish) which promotes the illustration culture, communicate the interests of professional illustrators and develop different ways to increase the professionalization among the illustrators.

Besides my profesional and administrative activities, I'm always in a constant research, starting personal and artistic projects to support and communicate the illustration culture.
